

DHA Director, Vice Admiral Bono Visits MRMC & TATRC!

On 13 March, MRMC and TATRC had the honor of hosting Vice Admiral Raquel C. Bono, Director of the Defense Health Agency, for a Command-wide briefing and medical products tour. While Vice Admiral Bono was able to see many of MRMC's command products and demonstrations, there were three TATRC-specific projects that were highlighted and featured during the tour. Those included: the AAMTI Program, the APPRAISE system from the BHSAI Lab and Unmanned Systems from the Operational Telemedicine Lab. TATRC would like to give a big shout out to Vice Admiral Bono and her team for taking time out of their busy schedules to visit us and hear about the many exciting initiatives taking place here at Ft. Detrick! A special thanks to our TATRC SMEs, Dr. Jaques Reifman, Ms. Holly Pavliscsak and Mr. Nathan Fisher for sharing their knowledge & expertise.
